THURSDAY, NOVEMBER 8, 1866.

THE ELECTIONS.—Up till the hour of going to press (four o'clock, A. M.,) we have received very incomplete returns of the recent elections. In New York our victory has been glorious. There all the power of the opposition, the government machinery, patronage, and pecuniary aid, were brought to bear upon the canvass only to secure a more triumphant defeat to themselves. Fenton has been elected by a majority closely approximating ten thousand.

In Michigan the result is equally gratifying. The entire Radical Congressional delegation has been elected, and the vote throughout the State shows large Republican gains.

In New Jersey the Legislature in both branches is Republican.

In Missouri the result is as favorable as the most ardent Radicals anticipated. Frank Blair has been elected to Congress by a majority of six. The Democrats have made a small gain in Delaware, the State going Conservative by one thousand majority.

From the other States we have no returns more complete or satisfactory than those furnished in our last issue.

THE ABDICATION of the Mexican Emperor is followed by rumors that Lieutenant General SHERMAN and Minister CAMPBELL will shortly sail on a diplomatic and semi-military mission to see what can be made out of the remnants he is leaving behind. While all men have a high respect for General SHERMAN'S abilities as a soldier, few have confidence in the solidity of his judgment on questions outside of his specialty. In a mission of delicacy, such as that to which he has been assigned, qualities are requisite which he has not the reputation of possessing. How far his deficiencies in this regard may be counterbalanced by the nature and accomplishments of Mr. CAMPBELL, can only be conjectured. Good may come out of the embassage; but as at present advised we should much prefer both of the distinguished gentlemen should stay at home.

AWHILE ago it was reported that Secretary Stanton was going out of the Cabinet; that he had delayed, fixing the new army appointments and other matters so as to leave the President comparatively powerless. How that was done by the Secretary did not clearly appear, and probably no man of sense was deluded by the representation. It is now affirmed, and doubtless correctly, that Mr. Stanton is not going out, and, in addition, there are rumors that the President is coming round, and designs proposing to Congress a Constitutional Amendment not much different from that now before the States for ratification.

BALTIMORE has a population of 300,000, which would imply a voting population of at least 40,000. Under Radical rule there are only 8,000 voters—five thousand of whom are Radicals. Call you that popular government?—*Doylestown Democrat.*

According to the census of 1860 there were 698,706 inhabitants in South Carolina. Of these 402,406 were excluded from representation, not, as in the Baltimore case, for crimes which the laws properly define and punish, but for wearing the color that God made them with. "Call you that a popular government?"

THE Toledo *Commercial* calls attention to the gambling houses in that city, of which it says there are eight, which have been there for years doing business as regularly as any other business in the city. The *Commercial* says "somebody's hard earned dollars are required to keep them in motion." It wants to know why nothing is done with them. In New York they have commenced doing something with this sort of men. The Democrats have just elected one of them a Member of Congress.

AT COLD WATER, Mich., on Saturday evening last, Ebenezer Leach shot his wife and a young man named Geo. O. Brown, killing both. Leach was a worthless fellow, and had separated from his wife some years ago. She was supporting herself, by keeping a millinery store. Being afraid of her husband, she asked Brown to escort her to her father's. On the way they were killed. She was thirty-four years old, and Brown eighteen. Both were highly respected.

WE learn from the Madison (Ind.) papers that on Friday night last a large barn and other out buildings and a quantity of lumber on the farm of Miss Delia Webster, in Trimble county, Ky., were destroyed by fire—supposed to be the work of incendiaries to whom Miss Webster has made herself obnoxious.

THERE seems to have been pre-concert in the rebel movement to create a riot in Baltimore. Had a riot been actually started, there are indications that riots would instantly have broken out in many Southern cities, putting the lives and property of Union men in peril.

THE Chicago *Republican* says it has assurances from private sources which it considers authoritative, that Lieutenant General Sherman has steadfastly refused to signify his approval of that line of action known as Mr. Johnson's "policy."

THE REV. GEORGE L. WILLIAMS, a clergyman of the Episcopal Church, and residing in Fredericksburg, Md., was arrested in New York, this week, for picking a lady's pocket in an omnibus.

THE total number of cholera cases reported to the Health Commissioner of Chicago for the month of October, is 1,062; of these 847 were fatal.

THE dividend of the Pennsylvania Railroad Company, just declared, is six per cent., being a falling off of one per cent.

MR. JOHN U. PETTIT, of Indiana, is named as a candidate for United States Senator in place of Mr. H. S. LANE.

THE colored people of Indiana are holding a State Convention at Indianapolis, in behalf of Equal Rights.

—Artemus Ward kissed the American negro actor, Morgan Smith, at the Olympic Theatre, London. This was very ungenerous upon the part of Artemus, who knows about as little wit or genius as anybody we know.

Abduction—A Curious Story of Revenge or Avarice—Two Young Children Stolen Thirteen Years Ago—A Clue at Last Obtained—Detectives on the Track.

The Detroit *Post* contains the following account of abduction case in Detroit: The sequel of a great crime has just come to light, and it involves considerable mystery and a great deal of heartlessness on the part of a woman, who deliberately intrigued, either for the purpose of having revenge on a woman whom she hated, or for the purpose of securing a large sum of money, of which two young children were the heirs prospective. The criminal was the second wife of a member of the two children, who were abducted thirteen years ago, are as follows:

Captain Sladden, who was an East India captain, twenty-eight years ago married a young wife in England, and came to Canada with a view of bettering his fortunes, although he had a handsome income of an annuity of £600 per annum. This annuity, which came through his mother, was to cease at the time of his death, and some portion of it was to revert to the children by the first wife at the time of her death, and she was then considerably advanced in years. After reaching Canada, the captain settled first near Windsor, and then in Detroit. His wife bore him three children, two of whom subsequently died, one after being married six years, and the other left, upon the death of Capt. Sladden, grown up to be ten years of age, but in the meantime, her mother had been married to a man named White, who had a sister named Hannah, a resident of this city. The result of this union was one child, a boy, who grew up to be three and a half years of age before the beginning of this chapter of family history, and the death of the mother. Mrs. White, then a widow, died in this city, with Hannah White, then a spinster, was staying at the house of her brother and was well treated there; the family having in the meantime moved from Detroit to Canada. One morning Mrs. White came to this city to do some marketing, leaving her sister-in-law in charge of the house. During the absence Hannah White took two children, Sarah Jane Sladden, her niece by marriage, a girl ten years of age, and her nephew, Joseph H. White, a child three and a half years of age, and left with them for parts unknown. The mother, on her return, found out her loss and was for a time inconsolable over it. She advertised in the principal papers throughout the country, set detectives to work, and did everything her means would permit of to find out the whereabouts of her lost children, but without success. Finally, Hannah and the mother gave up in despair, after traveling throughout the country for three or four years in search of her lost darlings, by which time the mother is learned that the woman who had stolen her children was in Detroit, and she took measures to have her arrested. Her efforts were rewarded with partial success, and after a serious law suit she got one of the boys, but could not get any trace of her daughter, who had gone with her grandmother under the following circumstances: After adducing the children, it appears that Hannah White took them to Vernon county, Wisconsin, and while there she was married to a man named Allen. This marriage was consummated in Bad Axe, in the above county, and she lived there some time, keeping the children with her. Some years ago the daughter Sarah, who had gone to Wisconsin, received intelligence of her mother and addressed a letter to her at London, C. W. This letter was received and an answer returned, in which the boy's mother would come after her and take her home. Mrs. Allen intercepted this letter, and calling her niece, who meantime, in account of treatment, had left her aunt and gone to work for a farmer, named Wilson, near Liberty Pole, in the same county, drew out the letter and presented it to her. But instead of giving its contents as they were she made up a story to the effect that Sarah's mother was dead and desired her daughter to remain with her (Mrs. Allen) had, for as validity of the will is maintained by counsel E. Surrogate Bradford, E. W. Stoughton, H. F. Clinton, George Bockingham, Almerin Gardner and Smith.

The Court being occupied in hearing exparte and arranging the jury panel, the case went over till to-morrow morning.

FROM CONSTANTINOPLE.

The Eastern Question—Position of the Great Powers—Russia and the United States.

NEW YORK, Nov. 7.—A recent Constantinople letter gives the following account of the Eastern question: There is now no prospect of the re-opening of the Eastern question in general. There will be active interference in favor of the Christians in Candia, but it will end with the close of the war. The Cretan question, not or opening it. England and France are agreed upon this point. Neither of these powers are ready for any general disturbance, and the Sultan, if he can help it, would gain what she lost by Turkey, and both are of the opinion that Russia is strong enough already. If Lord Lyons had been removed to Paris, with the partial success, and after serious law suit she got one of the boys but could not get any trace of her daughter, who had gone with her grandmother under the following circumstances: After adducing the children, it appears that Hannah White took them to Vernon county, Wisconsin, and while there she was married to a man named Allen. None of these seeds will be for distribution.

The Jumel Will Case.

NEW YORK, November 7.—The Jumel will case, which has occupied so much public attention for the past few months, was fairly started on the legal road this morning before Judge Barnard, in the Supreme Court. This case is brought to set aside a will made by the late Madame Jumel. The testatrix bequeathed the bulk of her property to various charitable societies, and made the defendant one of her residuary legatees, besides richly endowing his church and making him a handsome annuity.

The plaintiff as heir-at-law of the deceased, claims that she was induced to make this will through fraud, and by the undue influence of the defendant. It is also claimed that the lady, owing to imbecility and dotage, was incapable of making a valid, legal instrument.

The array of counsel is one of the most powerful ever engaged in this city. The heir-at-law is represented by counsels Charles O'Connor, ex-Judge Pierpont, A. J. Vanderpool, Chas. E. Whitehead, James C. Carter, Attorney Gen. Stanbery and Mr. Graham. The will is maintained by counsel E. Surrogate Bradford, E. W. Stoughton, H. F. Clinton, George Bockingham, Almerin Gardner and Smith.

The Court being occupied in hearing exparte and arranging the jury panel, the case went over till to-morrow morning.

Horrible Accident—Young Lady Burned to Death.

On Tuesday evening about eleven o'clock, an accident of a horrible nature happened at the house of Mrs. Martha Davis, a widow, residing at number seventy-six First street. It appears that Miss Jennie Davis, an interesting young lady of some seventeen years of age, was pulling down a lamp filled with coal oil, which depended from the ceiling, preparatory to extinguishing it for the night. By some means or other the fastening gave way, and the lamp fell, striking the girl upon the breast and shoulders, which were immediately enveloped in flames, and ere assistance arrived was horribly burned about the neck, breast and shoulders. She lingered in great agony up till yesterday morning, at eleven o'clock, when death relieved her of suffering.

Coroner Clawson held an inquest upon the body of the deceased, and a verdict in accordance with the facts was rendered.

The deceased was an amiable young lady, and her untimely end will prove a severe blow upon the widowed mother and a large circle of friends and acquaintances.

Fatal Accident

One day last week a boy eight years old, grand son of Joseph Elliott, living about one mile south of Saxonburg, Butler county, attempted to climb on behind a buggy, and in the act of so doing, his foot slipped and was caught in the wheel and carried around with it until his limb was badly fractured both above and below the knee. The soft parts were so much lacerated that the fragments of bone protruded through the flesh in both fractures. Upon examination by the attending physicians, it was at once decided that amputation of the limb was necessary, and in the immediate amputation of the limb, and that was anything but promising, owing to the severity of the shock and the previous delicate health of the boy.

The nature of the case being fully explained, the danger of death occurring during the operation, or soon afterwards, or the certainty of death proceeding by a few days of inconceivable suffering if the limb were left on—his friends requested that amputation be performed. After administering restoratives to revive him from the shock sustained, and the following Thursday afternoon, his limb was amputated by Dr. Rinelton, assisted by Drs. Neyman and Matheson. He survived the operation a little over three hours.

Gross Disorderly Conduct.

Mary McWilliams owns and occupies a tenement in the Seventh ward, in the peaceful possession of which she has been disturbed by the conduct of a certain elderly gentleman named Robert Franklin. Yesterday the latter paid Mary a visit, but she being disgusted by the tenor of his remarks, ordered him peremptorily to leave the premises. He did not, but returned almost immediately with a heavy ax and threatened to cut down the door unless he was allowed instantly to vacate the premises of Miss McWilliams. The lady, being of a retiring disposition, disappeared through a rear door, and made good her escape to the office of Alderman Beatty, where she made information against Robert for gross disorderly conduct. While the accused was still clamoring for admittance the Alderman's police arrived on the spot, and secured the assailant in safe custody. He was conveyed to the magistrate's office, and from there to the county jail for the brief period of three days. He was subsequently released on promising to mend his ways in the future.

Important Invention to Iron Manufacturers.

Mr. Theophilus Jones, a resident of this city and at present stopping at the Morgan House, No. 403 Penn street, claims to have invented a new process, by which he an make iron out of common metal equal to the best Juniata iron, and with less expense to to the manufacturer, and a diminuation of labor to the employees. He also claims that he can produce five tons of iron by his process, than can four heats be procured by the system now in use, and that better material for the manufacture of rails, axles, and every article made of the common metal by his process, than that of the Juniata iron, and that in the same furnace. He has testimonials of the Fort Pitt Works, and now challenges a trial at any mill in this city or vicinity. This is a truly valuable invention if it does all claimed for it, and should be examined at once by all our iron manufacturers.

Still Another Cure.

MESSRS. EDITORS—That the deaf may know where to find aid, I hereby make known the fact that I was entirely deaf for several years, so I could not hear a watch tick, and that Dr. Aborn, at the Merchants' Hotel, has by a few operations, so restored my hearing that I now can hear it. His method of treatment is of the most scientific, and unaccompanied by pain. JOHN KRESS, Mt. Washington.

Accident.—Yesterday morning as a locomotive on the Pennsylvania Central Railroad was backing down Liberty street, a German teamster endeavored to cross from Smithfield street. The train was nearer to the wagon than the man had any idea of, and he leaped from the wagon. The horse continued his course and got across the track safe, but the wagon was struck by one of the cars, and completely demolished. The horse was not in any way injured, but the German, who hails from the rural district, had to go home minus a wagon, as it cannot be repaired.

Warrant Issued.—Joseph Moses, if the statement of Robert Collins can be credited, is not so upright and honest as his illustrious namesake, who figures auspiciously in sacred history. A few months since Robert alleges he loaned Joseph five dollars, which he utterly refuses to pay at all. A warrant has been issued for the arrest of the defaulter.

Educational Convention.

The newly appointed Superintendent of Common Schools in this State, Professor J. P. Wickersham, has issued a circular relative to the Convention of County Superintendents, called by his predecessor, Professor Coburn, to assemble in Harrisburg on the 14th of December, and to continue in session for three days. Professor Wickersham endorses the call, and earnestly requests every Superintendent to be present, believing that there has been no time since 1854 when such a convention was more needed, or its deliberations calculated to do more good. It is expected that topics assigned to superintendents, and reports requested from them, will be read, and that the subjects treated of will be discussed. It is suggested that, the whole work of the county superintendency be reviewed, the School Department to give such instructions as may seem to be called for. In addition, the convention is asked to resolve itself into a kind of Executive Session daily, for the purpose of enabling the School Department to learn the views of Superintendents and of the people throughout the State on points in which changes in the law, or in the practical operation of it, have been thought of. Superintendents will be expected to come prepared to represent the wishes of their several counties upon the following subjects: 1. Minimum length of time schools should be kept open. 2. Uniformity of text books in counties. 3. County aid to teachers' institutes. 4. Provisional certificates. 5. Renewing and endorsing certificates by county Superintendents. 6. District superintendents. 7. District institutes. 8. Branches of study required by law.

Amusements.

OPERA HOUSE.—This house was crowded last evening by a large and fashionable audience to witness the ninth representation of the scenic spectacle of "The Three Guardsmen." The success that has attended its production should warrant Manager Hess in putting forth additional attractions of this character, which he will doubtless do. This evening the popular stage manager at this establishment, Mr. W. Ward, will appear before a Pittsburg city, producing the beautiful domestic play of the "Artist's wife" and "The Three Guardsmen," in both of which he plays important characters.

In his peculiar line, Mr. Ward is a good actor, and we are assured the public will give him substantial evidence of their appreciation of his efforts to please.

To-morrow evening the "Romance of a Poor Young Man" will be brought out with new scenery and stage effects.

THEATRE.—An immense bill of entertainment is offered at this House to-night, embracing the musical extravaganza of "Columbus," the thrilling drama of "Lady Audley's Secret," in which Miss Broughton is appearing in the former piece. This is sufficient to attract a large house.

MUSIC HALL.—The Arabian Nights' entertainments still continue to draw delighted audiences to Masonic Hall. It is well worthy of the liberal patronage bestowed upon it by the public, and will be found more performances in the evening and a grand matinee on Saturday afternoon.

Bold Robbery at Wellsville.

On Saturday night last, some villainous burglars attempted to force an entrance into the house of Edward Morgans, of Wellsville, but owing to the windows and doors being all securely fastened, they could not effect an entrance. They tried to raise the window of the sleeping apartment of Mr. Morgans, but in doing so they aroused the inmates of the house, after

THE ELECTIONS.

While the full details of the elections held on Tuesday are not yet received, enough is known to make it certain that the general results are highly satisfactory—quite as much so as any intelligent Republican expected. In New York Governor FENTON is re-elected. The Republicans lost all their Congressional candidates in the city. This was not unforeseen; for whatever districts they carried two years ago were carried not by their own strength, but by dissensions in the Democratic ranks. In the interior the Republicans gain one or two members; so that the loss in the delegation is not material. In New Jersey the Republicans gain two Congressmen, which compensates effectually for the loss in New York, if loss there is.

The Republican ascendancy in Congress is unbroken. The new Congress will be more radical than the present one. The will of the loyal people, contemned in the Presidential mansion and elsewhere, must now be respected and obeyed. The period has gone by when threatenings from any quarter can avail anything. If the Southern people want their States restored to participation in the Government they must consent to such terms as shall be offered them. There is no probability that these terms will be unnecessarily harsh or in the least vindictive. What the loyal masses want is not revenge, but security; and that they will have. The ballot-boxes have decreed it. The Constitutional Amendment will now be ratified; and if there shall be a manifestation of factious opposition, requiring more stringent measures, they will be adopted too.

WANTED—A REGISTRY LAW.

All citizens have a deep stake, which most of them realize, in maintaining the purity of Elections. Popular government is brought into contempt and jeopardy, whenever the conviction becomes settled that the ballot-boxes do not represent the will of the people. The bulk of electors, in all parties, however they may differ in intelligence, vote honestly, and desire that only those who are fairly and legally entitled to the right or privilege shall exercise it. In all parties there are men who are not so scrupulous, and do not object to fraudulent voting if it counts on their side. With such the end justifies the means. Holding their party to embody and represent the principles and measures essential to the highest good, they are content to have its success promoted by any sort of legerdemain, no matter how culpable. The amount of probable frauds perpetrated by any party may, therefore, be pretty accurately measured by the quantity of facile materials to work upon. Nor is this all. The men who make the committing of election frauds a study and delight, and who find that their party is, on the whole, largely a gainer thereby, are sure to resist and decry all stringent means for putting a stop to their nefarious practices. Hence, by observing which party opposes statutes against election frauds, it can be pretty definitely determined which party is most advantaged by them.

The lists of Taxables to which we are accustomed in Pennsylvania are designed to indicate who have a right to vote in the respective precincts; but they do this so imperfectly as to be of little value. None of these lists contain the names of all who have a right to vote at a particular poll, and each of them contains the names of persons who have no right to vote anywhere. Such lists serve only to perplex and mislead the officers of elections. A man, unless between the ages of twenty-one and twenty-two years, must be a taxpayer to be a voter; but aliens and females may be tax-payers while not voters. Nor is it necessary that a man offering to vote shall have paid taxes in the particular precinct, or during the year for which the lists are compiled.

What is needed are Registries of Voters, to be made up under proper safeguards some days before the holding of elections. These Registries should be compiled in the particular Districts, by Boards each composed of two men, one from either party. The proper Board should examine into the merits of each case, and when satisfied should inscribe the name of the claimant on the list. Only the men whose names are found thus inscribed should be allowed to vote.

The officers charged with the duty of compiling these Registries should act under stringent responsibilities, so as to ensure the acceptance of every name that ought to go on, and the rejection of every one that ought to be excluded. Besides, sharp pains and penalties ought to be provided for all men who seek to register, or actually do register, their names corruptly, and for all men who instigate or procure men to make or attempt fraudulent registry of their names. These details are so palpable as not to be difficult. Indeed, if the Board should be compelled to make a record of every rejected case, with the basis of claim, proof, and cause of rejection, and this record should be made evidence in case of criminal proceedings, the effect would be wholesome in deterring bad men from attempting election frauds. Then, it would be desirable, nay, indispensable, to insert strong safeguards to purity of administration on the part of officers of elections. We hear of precincts in which aliens, minors, and females, dressed in men's clothes, are allowed to vote at every contested election; in which all the existing laws are openly defied; and in which redress by aggrieved parties seems to be almost impossible as the case stands.

Of course, no barriers can be devised which will effectually exclude corrupt voting. So long as ballot-boxes form part of the machinery of government, and until the millenium shall dawn, a certain sort of men will want more votes than they are honestly entitled to, and will resort to any means to get them. But, whatever precautions, not needlessly vexatious, will tend to restrict their field of operations, are greatly to be desired. No man can vote, or ought to vote, if challenged, until he establishes by legal methods, his undoubted right in the premises. So, no new rule is proposed. What is designed is, to remedy existing defects in the time and method for determining whether a man claiming the right to vote is entitled thereto. It is better that all shall establish their claims beforehand without hurry, and under conditions allowing proper scrutiny. This would not only conserve purity of elections, but would remove all occasion for contentions and delays at the polls.

We bring this matter up now in order to commend it in season to the attention of members of the Legislature. Whoever among them will frame a good bill to this end, and be instrumental in passing it into a law, will do a good work, and earn the congratulations of honest men of all parties.

A. C. CAMERON, democratic candidate for the Legislature, at Chicago, has sued the *Tribune*, of that city, for libel, claiming $20,000 damages.

THE London *Times* argues, from the existence of corruption in the governments of the State and City of New York, that popular government is a failure. Is there no corruption in monarchical governments? A good many ugly disclosures have been made respecting parliamentary elections in England; and it is natural to infer that what begins stupendous frauds keep on and ends therein. So, across the channel. Thirteen years ago, a very poor man was made President. He is now Emperor, and he, and all the members of his family, poor as he was himself, have amassed great fortunes by plundering the people through the government. If there is a notion, of any considerable magnitude in Europe where the dominant politicians remain poor, the discovery of it has yet to be made. Hence, if no governments are to be tolerated except such as are immaculately administered, the nations will have to dispense with rulers and leave every man to do that which is right in his own eyes.

IN THE Supreme Court of Connecticut there has recently been decided a curious case. A man and his wife having been killed by a railroad accident, the heirs of each brought suit and recovered four thousand dollars in each case. The money obtained for the death of the wife went to her heirs, and the question before the Supreme Court was whether the four thousand dollars recovered by the death of the man should go to his or his wife's heirs. She having survived him a few hours, the court decided that the wife's heirs should have the money.

A Cholera Incident at Chicago—A Whole Family Dead.

The following is an incident of the cholera published in a Chicago paper during the prevalence of the epidemic in that city:

A gentleman came to the Health Office at an early hour this morning, and reported that the whole family, residing at No. 28 Green Bay street, were dead of the cholera in their house. Officers were at once dispatched to the place indicated, and there beheld one of the most sickening sights that has recently been witnessed in our city. In a small room, about sixteen feet square, in a filthy condition, and bearing all the squalid appearance which usually marks the home of extreme poverty, lay the lifeless bodies of a man and woman, apparently about fifty-five years of age.

The body of the man lay upon the floor, black and distorted, while that of the woman, his wife, lay upon a rude bed, in a frightful condition. Sitting on the floor, in one corner, alone with the dead, was a little boy about seven years of age, the only child of the deceased parents.

Upon inquiry, the little orphan stated that his father and mother were taken sick yesterday and died last night just after dark. The poor boy had passed the night in solitude and sorrow, frightened by the solemnity of the scene, but unconscious of its great loss.

It was ascertained that some relatives of the family who lived near by, had been informed of their sickness, but from timidity or neglect, had never gone to their assistance. A physician had been summoned by some humane neighbors, but knowing the poverty of the family, refused to attend.

How a Murder was Detected—Circumstantial Evidence.

The Lafayette *Journal* says that in the Circuit Court in session in that city on Thursday last, De La Foret was convicted of murder and sentenced to the penitentiary for life. He was convicted on circumstantial evidence altogether. The same paper says:

"Thus ended one of these cases in which a man is convicted of murder wholly by circumstantial evidence. A dead body is found under circumstances which left no doubt that a human being had been foully murdered. With the exception of the letters "C. S." on the inside of the cape of the dead man's overcost, nothing is found that would give even the remotest clue to his identity, or from whence he came. The body is exposed for two or three days in a public place, viewed by hundreds, yet no one recognizes him. A photograph is taken, and the soldier is buried as a stranger. But the ways of Providence are inscrutable. Near where the body was found a small piece of paper was picked up, upon which are a few printed words—the name of a gentleman in a distant city, and his place of business. By means of this little slip, insignificant in itself, the murdered man is identified, his friends discovered, and a chain of circumstances developed, that point out at least one of the murderers. He is arrested for another crime, the murder is charged upon him, and after a fair trial and patient trial he is convicted and sentenced to expatiate his crime by the best part of a lifetime in the State's prison. It is an old and homely saying, but a true one, that 'murder will out.'"

Taking the Oath Once too Often.

[From the Baton Rouge Advocate.]

X—— was one of the tightest men in the neighborhood. During the war he fought with his tongue on both sides, and never gave as much as a sweet potato to a Confederate soldier. One morning he was visited by a large crowd of cavalry, who were dressed in all kinds of patchwork—had their gunlocks tied on with strings, etc. Now, although X—— had never seen such an ill-sorted lot among the Confederates, he was sure they were not Yankees, and, although he had taken the oath so often that his nose looked like one of the streaks in the American flag, he began to talk patriotic.

"Gentlemen, dismount and take some water; the devilish Yanks have toted all my feed away, but I'm getting even with them. I generally kill one every morning before breakfast, and I have quite an early fast, too."

"Will you swear to that?" said the commander.

"Certainly," replied X——, who accordingly swore.

He swore worse than that before the Provost Marshal of Baton Rouge, where he was carried by his Federal captor in about four hours afterwards. His visitors were Federals in disguise, and P—— took a long trip at Government expense.

THE Galveston, (Texas) *Bulletin* talks so sensibly as to put to shame all the American democratic journals. Hear it:

"We hear frequently spoken of the fallacy which represents political right to be social equality. But still the accusation is made by the ignorant that a great party of the American people is in favor of bestowing social equality on the negro. Men and newspapers talk flippantly about miscegenation and about social equality. They would have us believe that there is a party which would have the negroes participate in our amusements and join us at the fireside, dance with our wives at the ball and dine with us at the hotel. Surely the distinctions between social and political life are broad enough for all to see. There can be none so ignorant it that they cannot distinguish between private life and public affairs. Public affairs are governed by the laws of the land, private life by our individual likes and dislikes."

THE following intelligence from the Tyrol is published in the Augsburg *Gazette*:

The number of monks and nuns, who, quitting a ntimonastic Italy, are arriving here to take sheiter upon the shadow of the Concordat is so enormous that the convents are literally overflowing, and to make matters worse, we understand that these *debris* of the religious societies of Italy, blown here by the storm of revolution, think of settling in our country. At Trent and its neighborhood six large houses are marked out as destined to receive the members of the various Italian orders. At Brixen the Jesuits from Padua have bought an extensive property, where they intend to found a college and an institution for their pupils. Lastly, a Frenchman, Count de Bradi, Grand Inspector of the Jesuits, has purchased for a sum of 130,050 francs, at Dornbirn, in the Vorarlberg, a property which he has placed at the disposition of the Italian sons of Loyola.

The Judge decided that as the accused did not charge any commissions for his services, and as his appointment was purely honorary, the case did not come under the provisions of the law punishing any "Clerk, servant, or other employee" for embezzlement, and that he must be released.

SUICIDE OF A NASHVILLE COURTEZAN—SHE PREPARES HER OWN SHROUD.—On Wednesday evening Lucy Sandlin, keeper of a brothel on North College street, committed suicide by taking morphine. A girl named Amanda Smart had gained the affections of Lucy's "man," familiarly known in that part of the town as "Shorty." Maddened with rage and jealousy, the unfortunate woman went to the drug store and purchased a quantity of morphine, which she took about sundown. In less than an hour and a half she was a corpse. In the dead woman's room was found a shroud which she had prepared in anticipation of the fatal act, and also crape sufficient for her obsequies. The parents of the deceased reside in Pulaski, Giles county, Tenn.

SPREAD THE TRUTH.—Some medical men insist that it is unadvised to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not save alive to all. The argument is bad. It is worse than that: it is INHUMAN. Suppose HOSTETTER'S STOMACH BITTERS—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the *experience* of the faculty, what would be then the on-sequence? Instead of gladdening and invigorating millions, the good effects of the preparation would have been confined to a comparative few. Th re is the highest an honest duty for a medical man to perform, and that is to find under a symbol, in whatever is excellent and meritorious for his OWN a hill, where all men can see the cognizances of it. It upon this principle that HOSTETTER'S BITTERS have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the thousands of testimonials of its favor have been translated into all written languages. Those who simply profess health to-day who would be laughing at the herbs of the field, and the wrappers had not *proved the truth with regard to this tempted to invigorate* and correct the fatal and wide, rapper proof has been reaped from its publicity. Is *that* any argument against it? If the public health has been progressively improved, it has been saved: if the feeble have been at heightened and the sick restored, *great good has been accomplished*, and whose mission is it to oppose it? Something else directed their fair reward.

The Pittsburgh Actors' Art Union—Important Meeting—Constitution Adopted and Officers Chosen.

For some time back those members of the theatrical profession at present located in this city, have been at work making the necessary preliminaries for the formation of an Actors' Art Union here, similar to that now in operation in Philadelphia, the object of which shall be the mental and social improvement of the members. For the purpose of effecting an organization and the furtherance of their laudable project, there was a meeting of histrions held yesterday afternoon in the parlor of the Mansion House, on Liberty street.

A temporary organization was effected by calling W. M. Ward to the chair and appointing J. E. Hartel, Secretary.

On assuming the presidency, Mr. Ward said in substance that he felt it his duty as the executive officer *pro tem*, to state the object for which they had come together. It was with a view of forming an association that would enhance the condition of the actor and actress—morally, socially, and intellectually. A society that would assimilate one with another, pass away with all petty jealousies and make them one in sentiment, in interest, and in purpose—in fact, a brotherhood fixed on a basis in consonance with the surroundings and talent of that class, or profession to which they belonged. The actors of Philadelphia had the honor of taking the first step in this matter, but he hoped ere long to find the profession bound together in such associations in every city in the United States where the drama had gained a foothold, that his fellow professionals should have an equal share in the benefits that will accrue therefrom.

Mr. G. S. Grey moved that the Constitution governing the Art Union of Philadelphia be read for the instruction of the meeting.

The motion was seconded by Mr. W. W. Moreland, who proceeded to illustrate in a lucid manner the workings of the Philadelphia Union of which he had been a member.

The following Constitution was then read, and on motion unanimously adopted:

SECTION 1.—This Association shall be called the "ACTORS' ART UNION."

SEC. 2.—The object of this Association shall be to raise by subscriptions, donations and benefits, a fund to establish a library and reading room, and for such other purposes as the members of this Association may direct.

SEC. 3.—The business and affairs of this Association shall be managed by thirteen (13) Directors, viz: a President, Vice President, Corresponding and Recording Secretary, Treasurer, Librarian, and eight others, who shall be elected semi-annually, from the resident members of the Association.

SEC. 4.—The persons eligible to become members of this Association, shall be all connected with the theatrical profession—subject to the approval of the Board of Directors.

SEC. 5.—Candidates for membership shall be balloted for. Three or more black balls reject; nor shall any person so rejected be again balloted for in this Association before the expiration of six months from such rejection.

SEC. 6.—Certificates of membership shall be signed by the President and secretary.

SEC. 7.—The initiation fee of this Association, including certificate and copy of the constitution, shall be one dollar and sixty-five cents.

SEC. 8.—Any member of this Association who shall neglect to pay his or her dues for the period of three months, shall be liable to expulsion.

SEC. 9.—No notice shall be given to members in arrears, the possession of these rules being deemed and declared sufficient.

SEC. 10.—All debts, money for ball tickets, concerts, festivals, theatrical performances, lectures and exhibitions for the benefit of this Association, due by members, shall be paid within one month, on penalty of expulsion.

SEC. 11.—Every expense occasioned by postage, carriage or otherwise, in conducting the transactions between this Association and the members thereof, shall be discharged by the individual member on whose account such expense may have been incurred.

SEC. 12.—Any member practising or attempting fraud upon the Association shall be expelled.

SEC. 13.—No member shall be qualified to vote at any semi-annual, or special general meeting, unless such member's dues and fines shall have been paid up previously.

SEC. 14.—A member withdrawing from the profession does not forfeit any of the rights and privileges of the Association.

SEC. 15.—Any member wishing to withdraw from this Association must apply (in writing) and be clear of the Secretary's books.

SEC. 16.—A member suspended for non-payment of dues, can be re-instated by paying the amount accumulating before and during the term of his or her suspension. If for unbecoming conduct, a vote of the Association must be taken previous to his or her re-admission.

SEC. 17.—No member shall be expelled unless two-thirds of the votes of the members present be in the affirmative.

SEC. 18.—Should any member enter the meeting-room during the time of meeting in a state of intoxication, he shall pay for the first offense a fine of one dollar; for the second two dollars, and for the third shall be expelled.

Mr. W. M. Ward (Mr. Grey in the Chair) offered the following, which was approved of, and to which the gentlemen present attached their signatures:

Resolved, That we, the undersigned, members of the Theatrical profession, pledge ourselves to abide by the rules and regulations of this Union as set forth in the constitution and by-laws that now is, or will hereafter be, adopted, and that we form ourselves into a branch order of the Actors' Art Union, the head being in Philadelphia.

The Association then went into an election for permanent officers, when the following gentlemen were chosen to serve for the ensuing six months: C. D. Hess, President; W. M. Ward, Vice President; G. S. Grey, Secretary; F. Crossan, Treasurer; J. C. Heybourne, Librarian.

On motion of J. C. Hall, the election of directors was postponed for the present out of courtesy to those members of the profession who, through various causes, were unable to be present.

Mr. Grey moved that a Committee of Two, consisting of one from each theatre, be appointed to wait upon Mr. Hess and notify him of his election as President of the Union, and also to escort him to the place of meeting.

The motion was put and carried, and the Chair appointed Messrs. Gray and Crossan to serve on that Committee.

Mr. J. M. Cook desired to know if the ladies of the profession were qualified to become members of the Association.

The meeting, by a unanimous voice, declared that they were.

Messrs. Gray, Stewart, Heybourne, Hall and Hartel were then appointed a Committee to draft a series of By Laws, to be reported at the next meeting of the Association.

The meeting then adjourned to meet at three o'clock on Monday afternoon at the same place, when a full attendance is requested.

Affiliation.

A rather prepossessing damsel named Henrietta Millman, came to the office of Alderman Humbert, yesterday, and made an information against John C. Harmer, for affiliation. The prosecutrix alleges that she resides in Columbiana county, Ohio, within a few miles of East Liverpool, where she became acquainted with Harmer, a brakesman on the Pittsburgh and Cleveland Railroad, some time last winter. Being of a lively, familiar disposition, and withal quite handsome, it was no difficult matter for John to gain the love and confidence of the too susceptible Henrietta. It was the old, old story, of faith confided and trust betrayed. The knowledge of her fall reaching the ears of her parents, she was forced to quit the parental roof, which she did, and came to this city, where she arrived on Friday last in quest of her directed lover, who she met in the Union Depot, on Tuesday afternoon. She quietly asked him if it was his intention to redeem his pledges, at which he seemingly carelessly hastened, and told her he did not want her to talk to him any more on such an obnoxious subject. Finding that she had no other alternative but to resort to the law, she proceeded to the magistrate's office and made oath as stated. A warrant has been issued for the arrest of the accused.

Optics in Danger.—Margaret James came to the office of Justice Lippert, yesterday, and instituted legal proceedings against Jane Thompson, charging her with threatening to injure the eyes and mar the vision of the deponent, or, in other words, Jane said in a violent and emphatic manner that she would put out the eyes of the prosecutrix, for which she was arrested and made to give bail in the sum of $300 for her appearance at a hearing to be had in the case to-morrow at three o'clock.

Pittsburgh and Allegheny Orphan Asylum.—The new building of the Pittsburgh and Allegheny Orphan Asylum, situated on Ridge street, Allegheny, will be open for the reception of visitors this afternoon, at half past two o'clock. The clergy, and all friends of the institution, are invited to attend. Addresses from distinguished speakers may be expected. The building is one hundred and fifty by fifty feet, and cost about $90,000.

National Wool Growers' Meeting.—It is now a well understood matter with the wool growers that the National Wool Growers' meeting, to be held in Cleveland, Ohio, on Wednesday, November 14th, will be very largely attended, and that the most brilliant talent engaged in sheep husbandry in the country will be present. The GAZETTE will be represented at the Convention.

Assault and Battery.—Patrick McCall came to the office of Alderman Lynch, yesterday, and made oath against Samuel McKay, for assault and battery. The offence consisted in the defendant striking Patrick in the face with his clinched fist, the blow being of such force as to prostrate the infuriated Patrick in the street. A warrant has been issued for the arrest of the accused.

Boy Burned.—A lad named William John Myron employed in the Excelsior Glass Works, in Pitt township, was severely burned yesterday by being struck in the face with a lump of hot glass that another boy, named Patrick Donnelly, was carrying on the end of a punta.

Country Seats for Sale.—By reference to our advertising columns a rare chance is offered to capitalists of country seats for sale.

We are indebted to Davis, Clarke & Co., 38 Wood street, for the October number of the American Law Review.

Special Caution.—Mrs. Winslow's Soothing Syrup has become so popular that various parties have put out articles calling them Mrs. Winslow's. Please take notice that the Mrs. Winslow's or the Soothing Syrup is not connected with any other article.

EARLY TELEGRAMS.

FROM WASHINGTON.

Mr. Stanton will Not Resign—Mexican Question Before the Cabinet—The President's Message—Commissioner Rollins to be Removed—Atcheson and Pike's Peak Railroad—Change in the Registered Letter System.

NEW YORK, November 7.—The *Herald's* Washington special says: We have it on good authority that Secretary Stanton never has been requested to resign, but that he will continue in charge of the War Department. The report that he and the President have had a misunderstanding in relation to the new appointments in the regular army, is totally untrue. The President has fully concurred in Mr. Stantons action in regard to them.

At the Cabinet meeting to-day, all the members were present, including Mr. Seward. It is understood the Mexican question was fully discussed.

It is intimated here, upon good authority, that the President will, in his forthcoming message to Congress, lay before that body an amendment to the Constitution similar to the one passed at the last session of Congress, with a few modifications.

The West requires the removal of Commissioner Rollins. The President has declared that a removal will occur, but he leaves the selection of a successor to Mr. Rollins in the hands of the Secretary of the Treasury. The Secretary has already declared his preference in case of a change, for William spooner of Ohio.

The Secretary of the Interior has received from the President of the Atcheson and Pike's Peak Railroad Company an affidavit, showing the completion of the road for a number of twenty miles of said road. The Government Commissioners will probably, within a few days, proceed to the lines of the road and examine the section.

The headquarters of the Department of Tennessee have been transferred from Nashville to Louisville.

The President to-day appointed James B. Williams, of Iowa, Register of Land Office at Fort Dodge, Iowa, and T. W. Benford, of Nebraska, Register of Land Office in Nebraska.

The returns received at the General Land Office, from the local offices at the Falls of St. Croix, Wisconsin, show that 7,296 acres of the public lands were disposed of during October, of which 4,316 acres were taken up for actual settlement under the homestead law. The cash sales amounted to $7,06.5.

A *Tribune* Washington special says: James Gayton, the well known special agent of the Post Office Department, is here, at the head of a committee of postmasters, to confer with the purpose of revising the regulations and arrangements relative to registered letters. The agents have been in consultation with Postmaster General Randall nearly all day, and have nearly matured their plan, and they meet to-morrow in New York for a further consultation.

The principal feature is to furnish all Postmasters with large sized envelopes, printed in brilliant colors, and made so conspicuous from their size and appearance that they cannot be easily concealed or stolen by persons having charge of the opening or closing of the pouches. At present registered letters do not differ much in appearance from ordinary letters, and can often be carried by a skillful thief without detection. The system of records and receipts now in use has been found defective.

It is confidently expected that the new plan, when fully matured, will give much greater security to registered letters, and bring that important part of the mail service into more general use, and raise it in the public estimation. The value of a good system of registry to business people cannot be overestimated. The proposed system will be a great improvement over that now in use.

THE ELECTIONS.

New York.

NEW YORK, November 7.—In New York twenty Republicans and eleven Democrats are elected to Congress, continuing the delegation in Congress as at present. The House of Assembly will have a large Republican majority, as the Senate elected last year already has.

The *World* admits the election of Fenton by 4,000 majority; the *Times* by 10,000; the *Herald* by from 3,000 to 5,000, and the *Tribune* by at least the majority given in 1864.

BUFFALO, November 7.—The entire Democratic ticket was elected here yesterday.

Delaware.

PHILADELPHIA, November 7.—Returns from the election in Delaware have been received. Newcastle county gives 185 majority for Riddle. Kent gives 93 Democratic majority. Sussex county is not complete, but enough is known to fix the Democratic majority in the State at one thousand. A Democratic gain of five hundred.

New Jersey.

NEWARK, N. J., November 7.—Hill, Republican, is elected to Congress by about 4,500 majority; and it is believed that Governor Newell is re-elected in the Second district. The Congressional delegation will stand four Republicans to one Democrat. A gain of two.

Elevator Destroyed by Fire.

OSWEGO, N. Y., November 7.—The Northwestern Elevator, which was built on the west side of the river in 1865, by Irwin & Gleason, and the largest in the city, having a storage capacity of 300,000 bushels, was destroyed by fire last night. There was stored in it 15,000 bushels of grain, on which there is an insurance of $22,000. The elevator was valued at $50,000, and insured for $30,000. The loss falls principally upon Eastern companies. The fire was first discovered in the cupola, and is supposed to have taken from a spark from a passing locomotive. This fire will not interfere with the handling of grain at this port, as the storage capacity at present is about two millions of bushels.

From Havana—Maximilian's Abdication.

NEW YORK, Nov. 7.—Havana advices of the 1st state that Lorsundi's successor was expected daily. Lorsundi himself has determined to leave the Island on the 15th, whether the new Captain General had arrived at that time or not.

Vera Cruz dispatches, via Havana, confirm the report of Maximilian's sudden departure for Orizaba.

The Rothschild Tobacco Case.

NEW YORK, Nov. 7.—The *Times'* Richmond special says: The further consideration of the Rothschild Tobacco case is postponed until the 15th inst., Judge Lyons therefore time reserving his decision upon the admissibility of the paper offered by the government through Mr. Chandler, thus leaving the matter open for further argument at that time, should either party so desire.

Supposed Murder.

NEW YORK, November 7.—The wife of an expoliceman named Jones, was found dead at her residence in Forty-ninth street, near First avenue, yesterday morning, under circumstances which indicated that she had been murdered. Her husband, John Jones, was arrested and locked up for examination.

PURE CALIFORNIA WINES.
GURNER & CO.,
No. 80 Cedar St., New York,
Offer for sale these valuable Wines, which are gaining the favor with the community rapidly, and whose unprecedented and unrivaled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and for invalids and delicate females which have volumarily been tendered from the most eminent physicians, as well as testimonials every position in life, are confidently recommended. These Wines are used in all cases for which they are recommended.
The following kinds are now offered by us. They comprise all the varieties now grown in the State suitable for sale:
HOCK WINE—Of a light straw color, very delicate and fine flavored.
CLARET—A superior wine for table use.
ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine whey and jellies. It is a fine dessert wine, and well adapted for Communion purposes.
MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.
PORT—Deep red color. Similar to, and in many respects superior to the wines of Lisbon.
GRAPE BRANDY—The pure distillation of our wines.
WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhœa.
These are the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold in one city alone during the last four years, a wherever introduced it has proved a welcome addition to the table. Valuable, the family circle, and the bachelor's sideboard.
Ladies who have lost strength and appetite, and suffer from nervousness and weariness; gentlemen who "don't feel very well" just before breakfast or dinner; whose stomachs are out of order; persons suffering from dyspepsia or debility; mothers weaning children and suffering from general debility; children of sickly nature and poor, dyspeptic constitutions; travelers who have occasion to change their waters; and all who dive in miasmious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.
It has been used very extensively in 1861, with such general satisfaction that in offering it to the public now we feel it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms to its favor. All that we can say is to guarantee them what we will pledge ourselves to furnish an article PURE AND UNADULTERATED.
It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl, seven years old, was in pains in her head, loss of appetite and by wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well

FINANCE AND TRADE.

WEDNESDAY, November 7, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 147¼; 1881's, 114¾; 5-20's, old, 110½; 5-20s 1865, 107¾; 7-30s, 1st series, 108; second and third 106. Michigan Southern R. R., 93½; Cleveland & Pittsburgh, 93½; Pittsburgh, Fort Wayne & Chicago, 110½; Erie R. R., 83¾; Union Telegraph Company, 51¾; Chicago & Rock Island, 110½; Chicago & North Western, 48½.

In our local stock market there is but very little doing. There is some inquiry for bank stocks, mainly for investment, but the offerings of this class of securities are very light, and, besides, the extreme views of holders has a tendency to retard operations. Oil shares very dull—a small lot of "Marine" was disposed of at McIlwaine's auction sale last night at 2½, which a decline. Columbia is quiet, and without quotable change, ranging from 16 to 17. There is a fair business doing in government bonds at about a quarter below New York quotations.

—The New York *Tribune* of Friday has the following on the policy of "hoarding gold" so energetically pursued at the present time by the Secretary of the Treasury:

Secretary McCulloch would seem to regard the payment of our National Debt not a "legitimate" disbursement of public money. We non-concur. That is the very object for which this surplus was, by stringent taxation created.

The Secretary might at once buy up and cancel at least $100,000,000 worth of our Public Debt, thereby reducing the annual interest payable out of the earnings of the people by at least $5,000,000—it might be by over $7,000,000. The redemption of the public debt would release at least $70,000,000 in gold, throwing it into the channels of trade, rendering gold abundant for every conceivable purpose, and increasing the real value of every "greenback" and Government bond in the country. The purchase and destruction of a twenty-fifth part of our National debt could not fail to appreciate all of that debt which remained unsatisfied. The bread of the poor would be cheapened; and, while most products and property would decline in currency value, Government bonds would be rising steadily in value. If that would not produce a state of things highly favorable to the payment of short time Treasury obligations into longer, what could?

But Mr. McCulloch, it seems, has determined "not to disappoint" gold speculators. In other words, he has determined to keep the food and clothing and fuel of the poor as dear as possible. Whatever his motives he flies in the face of the whole Treasury note policy, the grand weapon of the Treasury in the hands of the speculators in and monopolists of flour, coal, pork, &c., &c. He uses his vast power to put additional burdens upon the people's children hungry to bed. This is in glaring antagonism to the doctrines of his annual report and his Fort Wayne speech.

For whatever Congress has done or left undone the Secretary is now the responsible. He was not clothed with the requisite power to resume specie payments; so he is not to blame for the failure thus far to resume. All we ask of him is, that he *use whatever power he has* on the side of useful industry against baleful speculation. Let him pay the public debt as fast and so far as he can, thus making bonds scarcer and coin more abundant, and we will bless him for the good he does, and be content with that he presumptively would have done, had he been enabled. But, so long as he hoards gold to the extent of $80,000,000 plainly tends, through making coin scarce, to increase the premium borne by it, thus inflating all nominal values, and stimulating speculation to an almost frenzy. If this power is to be thus used, we cannot regret that it is restricted.

—Wm. Brough, Receiver of the assets of Culver, Penn & Co., has commenced a suit for trespass against Gen. Gray, Sheriff of Venango, and F. D. Kinnear, late President of the Venango Bank. The gist of the suit is simply a question of whether the property in the stipulated bank and bankers shall go into the hands of the Receiver for the benefit of all the creditors, pro rata, or be sold for the benefit of one. The decision of the Court will be awaited with interest.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
WEDNESDAY, November 7, 1866. }

The produce markets are steady and moderately active, though devoid of excitement, while, so far as values are concerned, there has been no changes worthy of special notice. Flour is very dim, notwithstanding it is "on" a little in Chicago, in consequence of an advance in freights, and dealers are very still indeed, we might say, tenacious. There is but very little inquiry for Provisions, and as the impression prevails that the Hog product will rule lower during the coming season than it has for several years past, there are no large buyers, and the market is weak and drooping.

GRAIN—Wheat is quiet but firm; sale of 1 car No. 1 Iowa Spring at $2,70, and 1 car on private terms. Oats in fair demand and firm, with sales at 34 to 35, on track and in elevator, and 38 to 40, in store. Corn is held at $1,10 to $1,18 for prime old Shelled—small sales at $1,20. Sale of 200 bush Rye at $1,25. Barley is selling at a variety of prices, as there is a great difference in the quality; Spring may be quoted at $1,12 to $1,20.

FLOUR—Is firm, with a moderate jobbing demand but unchanged. We continue to quote at $7,50 to $8 for Spring Wheat, and $13,50 to $14 for Winter Wheat brands. Sales of 50 bbls "Derwent" at $12,75; 50 bbls "Olive Branch" at $13,75, and 100 bbls "Globe Mills" at $13,25 cash to arrive. Rye Flour is quoted at $7,50 to $8—sales of Buckwheat Flour, in store, at $4 to $4,½ per cwt.

FEED—Bran—Bacon is dull but not quotably lower—small sales at 16½ to 17 for Shoulders; 18 for Ribbed Sides, and 24 to 24½ for Sugar Cured Hams. Lard has not further declined, and cannot quotably be quoted above 15 to 15½. No movement in Mess Pork.

LARD OIL—Is lower in consequence of the decline in Lard. We quote prime to choice at $1,47 for No. 1, and $1,25 for No. 2—demand fair.

APPLES—Quiet but steady with a demand almost equal to the supply—especially for prime to choice. We continue to quote at $2½ to $3,½ per bbl—sale of 25 bbls prime at $3, and 25 bbls choice at $3,½.

POTATOES—We can report a sale of 40 bbls prime Peach Blows at $2,½ per bbl. Jersey Sweets are quoted at $4,½.

BUTTER—There is a continued fair demand for prime Roll, but there seems to be no inquiry for common packed, in consequence of the dullness east. Sales of prime Roll at 29 to 32.

EGGS—In steady demand, and fresh packed sell readily at 30.

CHEESE—Continue dull with a supply considerable in excess of the demand; we quote at 16 for Western Reserve; 17 to 18 for Hamburg; and 15 to 20 for Factory and Goshen.

CHEERIES—Steady with regular sales at 45 for common and 60 for cultivated.

SEEDS—Flaxseed is wanted at $3. Nothing doing in Clover or Timothy.

APPLE BUTTER—Sales of 20 kgs at 70.

HAY—Prime baled $35 to $40.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
WEDNESDAY, November 7, 1866. }

CRUDE—There was quite a spirited demand for Crude to-day, notwithstanding the advices from the east were discouraging, though prices have undergone no quotable change—11 to 11½, bbls returned and in bulk, and 16 to 16½, bbls included. The reported sales in the aggregate reach 12,800 barrels, as follows: 3500, 2000 and 2200, all at 11c; 350 at 11½, bbls returned; 200 at 16½, bbls included; and 1000 for December delivery, at 11½. The arrivals continue large, and the receipts on the recent rise will be considerably larger than was generally predicted. It was supposed by many that 50,000 bbls would be all that would reach here, but already we have over 70,000 bbls reported, and "still it comes." That the sales during the past week have been large is well known, but the supply nevertheless is keeping up, and at present, somewhat in excess of the demand.

REFINED—There is no improvement to note in the demand for bonded oil, and the market is dull and weak, under the influence of adverse reports from the east. Yesterday and the day before, there were sales at 37, delivered in Philadelphia, while to-day, 35 to 35½ were the best offers that could be had—none there to-day to deliver, but quotations ranged from 35½ to 36. We can report a sale of 500 bbls standard white, at 38½, for immediate delivery in Philadelphia, and we are cognizant of a broker house having purchased 500 bbls in Philadelphia, for all November, to cover a contract, at 35. Free oil is dull, and standard brands cannot be quoted above 50 to 51.

ARRIVALS—The following arrivals of oil were reported to-day:

Lockart & Lew	2500	Gallagher & Son
Baxter & Effinger	330	W. Logan
W. Haldeman	4200	Fawcett & Bro
J. T. Stockdale	1000	J. Wilkins
Fisher & Rex	2220	D. M. Cochran

Cincinnati Iron Market.

CINCINNATI, November 5.—The demand for hot blast pig is less active, but it is sufficient to take about all that is offered, and full prices are realized. We quote mill iron at $48 per ton, and No. 1 at $50@52. Cold blast is in moderate request at $55@60 per ton for Missouri, and $65@70 for car wheel. Some Missouri blooms have been received and sold at $100@120 per ton. Bar iron is in fair demand at 5½@6c per pound for common and cha coal. MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, November 7.—Money more active at 5@6 per cent. Sterling dull at 109½@109¾. Gold easier, opening at 148, and closing at 147¾. Government Stocks firm. Freights to Liverpool quiet.

Stocks lower; Northwestern, 57¾; do. preferred, 77½; Toledo, 120; Rock Island, 110½; Alton & Terre Haute, preferred, 76; Chicago & Alton, 111; Fort Wayne, 109¾; Toledo & Wabash, 52½; Milwaukee & St. Paul, 61¼; do. preferred, 74½; Western Union Telegraph, 51½; New York Central, 110½; Erie, 82½; do. preferred, 85½; Five-Twenties, coupons 1862, 110½; do new series 1865, 110; do. coupons 1864, 107¾; Ten-Forties, registered, 106¾; Treasury Seven-Thirties, 106; Missouri Sixes, 90½; Ohio and Mississippi Certificates, 24.

The *Post's* money article says: The money market is active but easy at 5@6 per cent on call. Some of the banks have been attempting to put up their rates during the past two days, but there is less movement in this direction now. The Stock market in the opening was devoid of animation. Governments are firm, the 5-20s being stiffer; 7-30s are quiet. Railroad shares are irregular; early in the session there was a perturbed feverish feeling which towards the close gave places to an activity which caused some improvement in quotations. After the regular board quotations were: N. Y. C., 120½; Erie, 82½; Hudson, 123; Readings, 118½; M. S., 92½; Illinois Central, 125; Pittsburgh, 92¾; R. I., 110¾; F. W., 109¾; Ohio & Miss., 24¾; Toledo, 120; R. I., 110¾; F. W., 109¾.

The *Commercial's* money article says: The Stock market shows a general improvement after the outlines attending the elections. The transactions in railways were not large, but prices were generally firm, the chief exception being in the case of New York Central, which fell off 1¾. The advance of 1 per cent. in the case of interest has had no effect upon the spirit of speculation. The Money market continues easy, at 5 per cent. for demand loans on stock collaterals, and 4 per cent. on government stocks. There is less demand from stock brokers, but the requirements of Foreign Exchange are heavier. The rates of Foreign Exchange are nominal, as usual on steamer day; prime sixty days bankers' sterling are quoted at 109¼@109¾.

LATEST.

There is a fair demand for money, and a general disposition on the part of lenders to raise the rates on the loans to six per cent. The business to-day was at 5@6 per cent., but the supply continues ample, and there is no lack of capital. The discount market is also quiet and prime paper passes at 6@7 per cent. The Gold market was easier towards the close and fell off to 147. The market for Foreign Exchange is dull, and private bankers bill are held at 109½@109¾, but there are no buyers over 109¾@¾. The supply of Cotton bills is steady.

The Government securities were quiet and steady this afternoon at our quotations. Registered of '81, 114¾@114¾; coupons of '81, 114¾@115; 5-20's, reg., of 1865, 107¾@107¾; do coupons, 107¾@107¾; do. reg. of '64, 107¾@107¾; do coupons of '64, 107¾@107¾; do coupons of '65, 107¾@107¾; 10-40's reg., 109¾@109¾; 10-40 coupons, 109¾@109¾. In the coal shares there has been active business in Cumberland, at 70@71, and in Wilkesbarre, at 52¾@53, the latter upward movement in Wilkesbarre, and the increased demand for the stock, is due to the very general reports that the company has concluded positive arrangements with the Erie Road, which gives it facilities for transportation equal to the most favored companies. There was a pressure to sell stocks at the last open board, and a general decline took place. After the call there was a firmer feeling, and a rally from the lowest point.

NEW YORK, Nov. 7.—At the 4 o'clock open board the following were the principal sales: Cumberland coal, 70½; Quick-liver, 52; Western Union Telegraph, 51¾; Marriposa offered 30; New York Central, 110; Erie, 82¾ do preferred, 85; Reading, 118; U. S. 6's, Illinois Central, 125; Pittsburgh, 92¾; Toledo, 119½; Rock Island 110; North Western, 57¾; N. W. prefered, 76; Fort Wayne, 109; Michigan Central, 84, preferred, 61.

New York Dry Goods Market.

NEW YORK, November 7.—The dry goods market for the past three days has been unusually depressed and quiet. The market for prints and ginghams is from the lowest point of prints up, and there has been but few transactions the past three days. The market for prints has been quiet but there are no very large stocks of the leading styles on the market. These goods are very steady in price and moderately active for export. In the market, ticks and stripes, and heavy goods in general of this class, there has been some slight concessions in prices, and it is probable that prices will be fixed at those of September. There is only a light trade, but goods are in good style, and there is a renewed confidence is felt on the part of holders. The market for wool is still depressed. Jobber's prices are as follows: Printed Delaines, 40; Printed Reps, 42; Beatie, 29; do 8, 32½; Bleached Shirtings—Beatie, 35; do B B, 35; Blackstone, 28. Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water during the fourth week in October, in the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865	37,000	236,000	1,089,700	9,900
1866	37,000	611,800	447,200	3,981,800
Dec.	9,700	Inc. 352,200	Dec. 639,500	Inc. 63,900

The aggregate quantity of the same articles left at tide water from the commencement of navigation to the 31st of October, inclusive, during the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865	650,700	6,707,800	14,207,200	2,8 4,900
1866	213,700	3,993,000	22,13 ,900	3,210,600
Dec.	437,000	Dec. 2,813,900	In 7,736,700	Inc. 345,700

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a deficiency equal to 599,700 bbls. of flour.

Chicago Cattle Market.

CHICAGO, November 6.—The fresh receipts of beef cattle to-day at the Union Stock Yards are 304 head. Entered sales 257 head. There is scarcely anything doing in the cattle business to-day. Only two lots, consisting of fair packing steers were sold to Culbertson, Blair & Co. The receipts are light and buyers are looking out for the arrival of prices. There is no choice stock in the yards, and what is here in the market consists of common scalawag cows and oxen, for which there is no demand.

The "combination" is getting sick of their bargain, and already desire to effect a compromise, but we do not wish to have anything to do with the unholy alliance, and still continue to refer buyers to the owners to suit ourselves and the stock growers.—*Journal.*

RIVER NEWS.

The river continues to recede steadily at this point with four feet ten inches in the channel, by the marks last evening. A very heavy cloud of smoke and fog enveloped the city until near noon, when it cleared away, and in the afternoon the sun shone with all his splendor.

There has not been a single transient arrival or departure since our last report, and business at the wharf is exceedingly dull, yesterday. The Bayard, from Marietta, is due here this morning, and the Quickstep, from Cincinnati, will doubtless reach here to-day.

At the Allegheny wharf, business is almost completely suspended again, so far as steamboat matters are concerned. All the boats are laid up, with the exception of the Urilla, and she will follow suit after her arrival. The Allegheny Navigation Company, having move boats than is required for the trade, offer one or two for sale.

The Julia did not leave for Portsmouth on Tuesday, and great was the disappointment left yesterday. We presumed that she would from the fact that Tuesday is her regular day for leaving here.

The Bayard, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at noon.

The Sale Steamboat, Capt. J.H. Lightner, with Mr. J. W. Young in the office, is filling up steadily for St. Louis, and will soon be ready to take her departure. She has excellent accommodations for passengers.

The Armenia, Capt. A.C. McCallum, for New Orleans, and the Camelia, Capt. J. H. Lytle, for Nashville, are filling up slowly, and will be ready to leave in the course of a week or two.

The Quickstep left Cincinnati for Pittsburgh on Monday, and the Kenton, Amelia Poe and Importer were advertised to follow on Tuesday. The Importer left Cincinnati on Tuesday, has the following items:

The hull of Capt. Pres. Lodwick's new Portsmouth packet, Boston, was launched from Litherbury's yard yesterday afternoon. She will be complete and ready for business by Christmas.....The hull of Capt. Hopkins' new Tonnage packet, Kanawha, from Sunday. She will receive her cabin and outfit here. She will be called the Lizzie Hopkins.....The Telegraph, on her last upward trip, made the run to Gallipolis in twenty-one hours.....The commanders of our New Orleans packets yesterday agreed to load in Cincinnati, at the same grounds as advertised. This arrangement will facilitate shipments, as well as work to the interest of boats engaged in the trade. According to this arrangement, the John H. Groves will positively leave for New Orleans to-morrow, followed by the Alice Dean on Saturday. The Amazon will follow the Alice Dean. It is the intention to send out two boats for New Orleans, at present, increasing the number as soon as the offerings of freight will justify a third boat in a week.....Capt. Geo. Goodwin's new "Parker Line" tow-boat, Sam. Parker, made a trial trip on Saturday. She performed satisfactorily with only 10 pounds of steam.

The new preparation, "SARSAPARILLA IN A COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination, and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are
